NOTICE OF INFORMATIONAL FORUMS AND  
PUBLIC STATEMENT HEARINGS

(Issued March 26, 2019)

On November 2, 2018, Canisteo Wind Energy LLC (CWE) filed an application seeking authority to build and operate a 290.7 megawatt (MW) wind electric generating facility, which was deemed compliant with Public Service Law (PSL) § 164 on March 14, 2019. The proposed facility, the Canisteo Wind Farm, is a utility-scale wind power project that would include up to 122 wind turbines together with associated electrical collection system, access roads, collection substation components, meteorological towers, an operation and maintenance building, and other related facilities (the Project). The Project is proposed to be located in the Towns of Cameron, Canisteo, Jasper, Greenwood, Troupsburg and West Union in Steuben County. CWE proposes to interconnect the Project to the power grid by constructing an electric transmission cable that would interconnect to New York State Electric and Gas Corporation's Bennett substation in the Town of Hornellsville. The transmission facility will be subject to review in a separate proceeding (Case 19-T-0041), pursuant to PSL Article VII and will not be reviewed as part of the proposed wind Project.
